

Date

Dear families,

We are planning to begin a daily sharing routine called 'Home News'. For this program to be a success, we need your help!

Each day at school we will have a time set aside for students to tell about experiences that happen at home and other places outside of school.

We'd like each family to help their child come up with some "news" from your home to share with friends and teachers at school.

You and your child will use a _____ device for recording and sharing 'Home News'.

You will also receive a Tip Sheet with ideas for topics and how to record news.

Please plan to set aside a few minutes each evening or morning before school to plan and record 'Home News' with your student.

Send in your recorded device, along with any props/objects/photos that will help your student when they share.

Thanks in advance for your participation.
